It's an exciting time for you to join us. We're a changing company with big ambitions and together we'll create the future of banking.

Working with us, you will play a part in building a better bank that fulfils a meaningful role in society. We aim to help our customers around the world improve their lives and reach their goals. To do that, meeting our customers' changing needs and offering them the best possible service is central to everything we do. Interested in coming on the journey with us?

The offer

As Senior Financial Analyst, you'll drive the model governance process within Nordea Life & Pension, deliver high quality financial and risk analyses, and interact closely with Nordea's Life & Pensions companies in the Nordic countries.

In Models & Analytics, we are responsible for the production, calculations and processes surrounding the quantitative models used for Solvency II purposes and other financial and risk analyses.

What you'll be doing:

- Support Head of Group Capital Management & Investment Operations in working across local and global stakeholders in Life & Pensions to ensure that a consistent and coherent risk and capital model framework is

embedded and supported throughout the organisation

- Responsible for operational effectiveness of the models, including the model change process
- A member of the Model Committee in NLP Group
- Actively contribute to the design and development of quantitative models within Solvency II
- Actively contribute with risk and financial analysis

The role is based in Oslo. Welcome to a global team where your strong analytical skills along with your interest in the business is making a difference.

Who are you

Collaboration. Ownership. Passion. Courage. The four key values that guide us in being at our best and that we expect all our colleagues to be committed to.

To build a successful career with us, you'll work well with others and always act with the customer's needs in mind. You love learning and trying new things, and you're excited about bringing your ideas to the table. You're honest and dependable, willing to speak up even when it's difficult, and committed to empowering others. You're passionate about doing a great job.

You have the ability to structure and plan work for yourself as well as others and you are capable of seeing the big picture but not afraid of dig into the details.

Your background:

- Master level degree or higher in Finance, Mathematics or similar with excellent analytical skills
- Experience from Solvency II framework and model development
- Interested in programming
- Fluency in written and spoken English

If this sounds like you, we look forward to welcoming you to the team!

More information

You have until February 11th 2018 to send us your application.

For more information about the position, you are welcome to contact Hanna Jacobsson, Head of Group Capital Management & Investment Operations, +46 721411131, hanna.jacobsson@nordea.com or Per-Ivar Faust, local Model Architect, +47 98280166, per.ivar.faust@nordea.com

We believe that diversity improves team performance. Therefore, we strive to form teams with a mix of people of different genders and ages, and with different backgrounds and experiences.

Great people often know great people – please share if you have a friend who would love this job.
